## Overview

---

Over my 23 year career I can count on one hand the number of owners that maintain a yacht to the standards that this owner does. Mechanically and cosmetically this vessel will meet the the strictest of standards. I've sold two boats for him prior and both were the same way.

Bad To The Bone is just that ... ba ba ba BAD!!!

- The LARGEST engine package available, CAT C32 w/1650hp
- ALL engine services up to date
- New Raymarine Axiom electronics
- New bow thruster
- New Battle Saddle
- New isinglass
- New SeaDek
- New SeaVision LED underwater lights
- New CAT engine displays
- New AC condensers and pump
- New custom mattresses for all staterooms
- New Vinyl for both the interior and exterior (sofa, dinette, helm chairs, all seating)
- Bonding System Renewed 2019
- New Windlass

Other equipment highlights are; watermaker, ice chipper, bottom paint 2/20, non-skid repainted (bow), new fuel transfer pumps, new step cooler condenser, all light replaced with LED

# DETAILED INFORMATION

---

## Manufacturer Provided Description

---

The Hatteras 54 Convertible is designed specifically to deliver a smooth ride while operating at high speeds. The convexity in the hull shape helps make this hull immensely strong. The slight outward curvature (viewed from keel to chine) reduces impact accelerations and contributes to an incredibly smooth head-sea ride. Traditional Hatteras double chines are incorporated into the hull design to provide the Hatteras dry ride. A slight twist in the hull bottom - better defined as a variation of deadrise with length - provides flatter sections in the aftermost portion of the hull. These sections reduce resistance, improve handling at low speeds and increase transverse stability while planing. Access to the spacious (150 sq. feet) flybridge is gained from a ladder on the outboard port side of the cockpit. This one-piece molded bridge will delight the seasoned captain for its ergonomic layout and sheer space. The helm station with its pod console takes center stage. The ergonomically positioned steering wheel (with power steering and a rudder angle indicator) and single-lever electronic engine controls, fitted with mechanical backups and trolling valve switches, are comfortably operated seated or standing. There is plenty of room for a comprehensive suite of electronics on the angled flats. Guest seating is provided to port on the molded fiberglass lounge with removable cushions (and storage below) and to starboard on the L-shaped bench seat. An insulated drink box is included. Whether you opt for a Bimini, hardtop, or full enclosure with tower, the flybridge offers a rich mix of fresh air, a breathtaking view and quiet surroundings to enjoy with family and friends.

## Additional Description

---

The 54 is designed for serious sportfishing. The cockpit boasts 149 square feet of open space where every element and dimension has a purpose. Fishing amenities include a bait and tackle center with sink, cutting board and tackle drawers; a bait freezer; storage console with drawers, four rod holders; a removable, full sized (80-inch) in-deck fish box with macerator and an amply proportioned transom door.

This cockpit also features awesome storage. Note the cleverly designed chill box under the steps and the insulated storage bin below the flybridge ladder. In addition, storage lockers with hinged doors are located below the port and starboard cockpit coamings. Other standard features include full-length toe kicks with foot pedal access to the cabinets and seawater and freshwater washdowns.

## Salon

---

Upon entering, you'll find the FRESHLY upholstered L-shaped sofa with new foam

cushions and rod storage underneath. Built into the forward bulkhead is the television with surround sound system. The interior features genuine high gloss cherry veneers with large frameless windows. Linear valences evenly distribute cooled air throughout the salon through fluted wood cornices.
