SPECIFICATIONS

Overview

A fine example of the early Bertram sports fishing line, she has been repowered and maintained by the same marine professional for 13 years. Lil Pearl was repowered in 2006 with new Cummins/Mercruiser 120 hp Diesels (500 hours) combined with Mercruiser Alpha 1 outdrives. A fast and economical combination that make the most of her wide beam and deep V hull.

The Mark II Sport Convertible was built in three configurations; hard top with flybridge, hardtop, and the open cockpit "sport" model. Her wide beam and the 'Deep Vee' hull design running all the way to the transom provide incredible stability. These are fast boats that also have a great reputation as a stable offshore fishing platform....a must see if you appreciate quality, performance and reputation. She is a value at this reduced price which is firm.

Please see the full specs for more information and photos. She is available with the option of a half price slip and storage for one year at a Brewer RI Marina. Ri does not charge sales or use tax on vessels berthed there....also close to 2 international shipping terminals.
