Water Capacity: 86 Gallons

Fuel Capacity: 79 Gallons

Accommodations

Total Cabins: 3

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 1

Manufacturer: Yanmar

DETAILED INFORMATION

Exterior

The X4 utilises vacuum infused epoxy lamination, giving the ability to save weight. This is paramount to increase the weight of the lead keel bulb, lowering the centre of gravity, assisting the hull to drive through the waves. This is key to delivering a stiff yacht without the keel draft being extreme, enabling the X4 to moor in shallower waters. The hull is available in a number of colourways and is oven baked, enabling the option of dark topsides without the risk of surface deformities. The hull topsides include six large portlights, with a further 8 openable coachroof portlights on deck for optimum light and ventilation. In addition to this the forward face of coachroof is fitted with curved toughened glass, maximising interior light. All of these combined make below deck feel light, airy and spacious. For when you are at anchor, there is a large electrical operated bathing transom door, which allows easy access to the water, and a dinghy garage for storing up to a 2.7 m inflatable.

Interior

As you step below deck you will notice the spacious entrance with laminated raw teak steps, to prevent slipping, and elegant laminated teak handrails. The X4 will welcome you with lots of new ideas, light and ventilation. There are a number of layout options available, all beautifully presented in a modern and internationally recognisable style and quality. Standard Oak veneers in a Nordic style or with an option for teak, white vinyl paneling, teak laminate floor boards, bright white walled bathrooms with teak gratings and Corian worktops with integrated Corian sinks.

Exclusions

Owner's personal belongings.

Disclaimer

The Company offers the details of this vessel or yacht in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his representatives, agents, or his surveyors, to investigate such details as the buyer desires validated.
