Engines: 1

Manufacturer: Yanmar

DETAILED INFORMATION

Construction

With the introduction of the X-65 in 2007, X-Yachts started to infuse hulls for performance yachts utilising epoxy resin. Epoxy infusion construction offers fantastic control over the laminate allowing it to be optimised to maximise strength and stiffness, whilst saving weight. In the X56 all weight saved is used to increase the yacht's stability enabling the crew to have a more relaxed time and to feel safer and more comfortable. The fact, that the hull is cured, baked at high temperatures for almost 24 hours, not only optimises the hull material properties but also minimises the risk of the darker coloured hull surfaces to suddenly start posturing, losing the surface finish. With over 10 years of experience building epoxy infused yachts, X-Yachts took the decision in 2018 to build all models using this technology, one of the only yacht builders to do so.

Interior

Interior craftsmanship Danish design and architecture is famous for its clean, timeless style. The X56 is a showcase of luxury interior design; the yacht has a great sense of light and space, whilst maintaining practicality and functionality, with a design that works as well out on the open sea as moored in a harbour. The flush deck hatches and coachroof side windows allow a lot of light into the boat and offer great ventilation. Large hull windows offer fantastic views from the spacious saloon. *High quality materials* The X56 is offered in a range of finishes: Nordic Oak veneer is standard on all furniture, and optional veneers include a lighter White Tinted Oak and a more traditional Teak. All veneers are hand-selected in Italy by our specialists from one of the most exclusive suppliers for the marine market for high quality yachts. When combined with the top-quality craftsmanship X-Yachts is famous for, this translates to affordable luxury. As with all models in the range, there are a large number of options for soft furnishings;

Exclusions

Owner's personal belongings.
