SPECIFICATIONS

Overview

Great couple or family boat with a unique, but spacious interior. She is fully equipped and ready for a new owner, for a great price! Check out the large cockpit with cushions and perch seats. A great swim platform too! The boat is easy to sail with a recent Doyle stackpack mainsail bag to drop the main into after sailing. The genoa is on a roller furler with a UV cover. The cockpit has a dodger and bimini. A suite of electronics, including a chartplotter and autopilot, and anchor windlass makes effortless cruising! Down below you have full amenities to spend weekends aboard or longer cruises. Pearl has been in freshwater for the last 10 years and has been kept clean by her loving owners.

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 1

Manufacturer: Universal

Model: 25XP

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Overview

Manufacturer Provided Description

The Catalina 310 represents an innovative approach to cruising boat design, as it incorporates the big boat features many couples desire in an easily handled, stable thirty-one foot hull. The cockpit will comfortably day-sail a group and has long seats for napping or sleeping under the stars. Cockpit lockers are numerous and large enough to hold all your cruising gear. The side decks are extra wide and secure for easy movement forward and aft.

Sail controls and anchoring systems are well thought out for ease of handling. The accommodations are designed primarily for a couple, with a large owner's cabin forward. A queen size centerline berth, innerspring mattress, and large bank of drawers will appeal to both captain and first mate. Lockers are both port and starboard.

Catalina owners have come to expect excellent light and ventilation, and the Catalina 310 is no exception. The main cabin is plushly upholstered with deep comfortable seating. Forward is a closeable opening in the bulkhead. Also, there is a huge double berth aft for guests.

The galley has everything for memorable meals aboard: a two burner stove with oven, a top and front access refrigerator, deep stainless steel sink, lots of handy storage, and an available microwave. The head has a separate shower compartment and plenty of storage; all through hulls and a "Y" valve to the holding tank are easily accessible. In fact, all systems are designed to enhance life aboard.

Special features include a twenty gallon water heater, two 4D deep cycle batteries with an electronic battery charger, high quality fixtures, and easily accessible pumps, valves, and filters.
