# DETAILED INFORMATION

---

## Overview

---

### Manufacturer Description

The Cutwater 24 is powerful, beautiful, and innovative. The C-24 is powered by a standard 240 HP Volvo gasoline Duoprop sterndrive. Upgraded power options include a 300 HP Yamaha Outboard and a 220 HP Volvo diesel Duoprop sterndrive. The compound-curved bonded windshield and double-stepped hull featuring our ground-breaking patented LFI technology are two features that set the tone for what is certainly Cutwater's most exciting design to date. A gracefully designed hull incorporates a full bow with low aft sides and a deep cockpit. This combination maximizes performance, safety, interior space, and comfort. The sleek profile of the Cutwater 24 turns heads no matter where she goes. The style and innovation cues continue inside the Cutwater 24 starting with an opening aft bulkhead and reversible dinette seat that provides additional cockpit seating and truly invites the outside in. There is plenty of light in the salon from the opening, transparent roof hatches and sliding side windows. The beautiful interior of the C-24 features abundant Maple and Cherry cabinetry and shelving in the galley as well as the private forward stateroom. Heavy gauge Sunbrella fabrics wrap all interior seats for maximum comfort and durability. The mood is set in the salon and forward cabin with aircraft-style, indirect LED lighting.
