SPECIFICATIONS

Overview

The Pacific Seacraft Flicka has Big Boat Capabilities! Price Just Reduced Clean, well maintained and ready to go. She is turnkey, ion-the-hard ready for this season. A very handsome little sailboat-BUT keep in mind that she is one of the most capable small cruisers ever built, with many having completed ocean passages. With their full keel, strong sheer,; bluff bow and heavy displacement, it's no surprise to find that they in fact have a workboat heritage--the story really began over 100 years with the workboats sailing out to Newport, Rhode Island. Bound for the Block Island Sound to work the fishery, these vessels had a reputation for being fast, seaworthy and bringing their crews back to port safely--no easy task considering the weather these fishermen faced when they were at sea days on end. Oh, and at 20 feet she won't break the bank dockside either!
