SPECIFICATIONS

Overview

The new Astondoa 66 Flybridge provides the luxury of its larger flybridge counterparts like the popular Astondoa 80 Flybridge, but is designed for day cruises and island hopping for the captain who may want to operate his own yacht - though crew quarters for two are provided. An ensuite master and three additional guest suites and two additional heads provide comfortable overnight accommodations for the owner, friends and family. Powered by twin MAN 1000 V8 or CAT C18 1150 engines, the 66 GLX hits a top speed of 33 knots and cruises at 25 knots with 300 nm range. Like all Astondoa yachts, the 66 GLX can be customized from layout to furnishing - all designed, engineered and built by the Spanish builder that celebrated 100 years in 2016.
