## Overview

---

In February 2018, THE SERENITY 64 broke all existing borders and expectations. As the very first - fully solar powered - production yacht in the history of nautical travel, the SERENITY 64 yacht crossed the entire Atlantic Ocean. This extraordinary achievement proved the outstanding durability and efficiency of the SERENITY solar-electric drivetrain even during unfavorable and rough weather conditions. New Era in Luxury Yachting Our quiet electric and hybrid motors give you the opportunity to experience the sea the way you always imagined it. Breathe and take in the salt air, not the diesel fumes. Listen to the waves lapping against the hull instead of the rumble of the engines below you. Experience the virtually endless range of a sailboat without sacrificing the luxury and security of a power-cat. Enjoy yachting the way it was meant to be: just you, the sea, and Serenity. With six luxurious cabins, a grand salon, and an enormous solar array, the Serenity 74 gives you a virtually endless range with comfort and style unparalleled in the catamaran market.
