ХАРАКТЕРИСТИКИ

Обзор

Motoryacht of the year 2007, the Velvet 90' increases the pleasure of livability by adding fresh spaces, interior and out. A wider cockpit and bar. The maximum beam, which flows through the double side windowing, ample windshield, and through the crystal aft door. Natural light abounds as seen by the twenty-two lower deck hull portlights.

Professional interior design coupled with exterior styling has created an aggressive look, yet offers an informal, family-oriented, and relaxed feel. The exterior areas were designed to create maximum comfort while not visually affecting the sporty look. With her increased performance, the Velvet 90' assures a cruising velocity of 25 knots with first-class engines. In the typical Tecnomar type, she's entirely dedicated to a warm welcome. Powered by twin MTU 16V 2000 M91 main engines, linked to Arneson surface drive propellers, she can cruise at 25 knots and reach a maximum speed of 35 knots.

She can also accommodate 6 guests in 3 cabins (Master, VIP + Twin) Plus 2 Crew cabins for up to 4 Crew

Key Features:

- \$600,000+ invested 2018 - 2020 Refit
- New Paint (Hull & Super Structure)
- Fresh Bottom Paint

- Vessel Cameras

Manufacturer's Description

The Velvet 90' as a direct development of the Velvet 83', offers greater living space thanks to the extension of both length and beam. The design has remained faithful to the homely lines that trademark Velvets in general, the more extensive window panelling on the superstructure enhances indoor brightness, and in true Velvet tradition, the interiors may be personalized both in terms of layout and choice of materials.

Below deck, sleeping quarters only for the standard version of the 90' with the Master's cabin at full beam amidships, two twins and a VIP situated in the bow area, all cabins

enjoy en-suite bathrooms. The superstructure above the main deck hosts a modern a saloon which is fully fitted with the latest in media technology and luxurious seating to go with it.

The external area of the same deck is dedicated to sunbathing both fore and aft and is consequently fitted with the appropriate sun- pads. The stern deck area is also dedicated to open-air dining. The stern bathing platform is of such generous proportions that it facilitates moving the tender somewhat easier as it is housed in the hangar accessed from the stern.

For further information please contact: Tecnomar; p.zza M. D'Azeglio 22; 55049 Viareggio (LU); tel. +39 0584 392901; fax +39 0584 392902; web site: .

TECHNICAL DATA Length overall: 27.00 m Beam: 6.30 m Draught: 1.50 m Displacement: 50,000 Kilos Fuel Tanks: 6,000 Litres Water Tanks: 1,500 Litres Engines: 2 x 2,033 HP MTU Transmission: Arenson Drive Maximum speed declared 35 knots Construction GRP
