SPECIFICATIONS

Overview

The 34' PDQ Passagemaker (Traveler) 2002 is the perfect looper, island hopper, or vessel for entertaining friends over a long weekend. This spacious and comfortable Power Cat is perfect for a live-aboard. The two large staterooms both offer queen sized beds with ample room. The large salon is open and spacious providing great views and plenty of light. The galley is well organized and cozy. "Traveler" has recently received many updates and the list is extensive! With her thin hulls, the PDQ 34 cuts through waves effortlessly. The twin Yanmar inboard diesels cruise at 13-14 knots and reach a top speed of 20 knots. This is a boat that's ready for cruising. "Traveler" is a must see! The seller is motivated! Put this gem on your radar - she will not last long.

- Radio

Inside Equipment

- Battery charger
- Air conditioning
- Hot water

Electrical Equipment

- Generator

Outside Equipment/Extras

- Cockpit cushions

Covers

- Bimini Top

Manufacturer Provided Description From start to finish, technology is a driving force behind building PDQ boats. The power of this technology is phenomenal in its ability to develop shapes and configurations. With these systems, our designers can quickly and accurately perform weight distribution studies using intricate mathematical models that would otherwise take weeks to complete. The advantage of having a composite model is that we can accurately see perspective views. This "real life" view gives us the ability to place a hypothetical person in the boat to gather ergonomic data. These ergonomic reference models in turn help us select every item and its placement onboard. When it comes time to build, we can create cross-sections and render 3D surfaces that can then be machined to shape.

Exclusions

Owner's personal belongings.
