## Overview

---

The Aspen C90 Power Catamaran has been described as an *"Asymmetrical Wonder"* and the *"Most Innovative Pocket Cruiser in the world!"* While the design may be asymmetrical, the Aspen C90 is quite spacious for a 'Pocket Cruiser' thanks to a very generous 10' beam. Her revolutionary design offers a host of large boat features with performance and economy of operation that can only be described as revolutionary!

Briefly, the Aspen C90 is a Catamaran powered by a Single Volvo Diesel engine mounted in the larger starboard hull. The smaller port hull is narrower and engineered such that the boat tracks true and straight. The result is a very spacious design with excellent performance and a remarkably light fuel burn.

*The Good Life* is a fully loaded C90 in beautiful condition. She is equipped with the optional Volvo D3 Diesel rated at 220 HP with less than 160 hours, Other optional features include Mase Generator, Reverse Cycle Heat and AC, the Aspen Adventure Electronics Pack and much, much more, including a Zodiac Tender!

Intrigued? You really should check this one out! This may be the only C90 offered on the East Coast, call today!

**PLEASE NOTE:** Available to view by appointment please!

## Hull and Deck Information

---

**Hull Material:** Fiberglass

---

## Engine Information

---

**Engines:** 1

**Manufacturer:** Volvo

**Model:** D3 220

**Engine Type:** Inboard

**Fuel Type:** Diesel

---

# DETAILED INFORMATION

---

## Overview

---

*The C90 is a twin-hulled powercat with a full cabin. It can putt along at about seven mph while burning just a hair over a gallon per hour, which translates to nearly seven miles to the gallon. Kick it up to 15 mph, and the boat still gets 3.8 miles to the gallon. Even at wide-open-throttle speeds of almost 22 mph the boat still gets 2.5 mpg...*

*A cat that cruises on one off-center engine? And a relatively tiny engine, for this size boat? Yup. The hulls are asymmetric: the port hull is about 35-percent thinner than the starboard hull. This reduces overall drag by about 50 percent, while at the same time countering the torque created by having an off-center powerplant. As a result, the C90 tracks perfectly straight, while running far more efficiently than either a monohull or a modern twin-engine powercat.*

*Aspen C90: An Asymmetrical Wonder - Lenny Rudow*

## Standard Features

---

- D3 Volvo Diesel Power - Closed Loop Cooling
- Side Power Bow and Stern Thrusters
- 6 Automatic Bilge Pumps - 1 per Compartment
- 2000 GPH Emergency Engine Room Pump
