## Overview

---

Maritimo will never submit to the status quo. As innovators, we challenge conventional wisdom to materialize new ideas. We see every detail as an opportunity for excellence, and we take no short cuts in our quest to create the extraordinary. A symphonic blend of functionality dressed in powerful form, the X Series is here to re-imagine the traditional idea of the conventional sport yacht concept. The result is nothing less than extraordinary.

From its race infused bloodline, the X50's powerful exterior form blankets an innovative yet simplistic functional web of expansive customisable arrangements and advanced design features that will be inherent in all X-Series models.

The Maritimo X50 design incorporates an innovative aft accommodation space accessible from saloon and swim platform deck. Whilst the balanced aggressive lines of the X50 instill an aura that will make this vessel the envy of all nearby. The customisable aft cabin can be optioned and utilized as a beach club with ensuite, twin single stateroom with ensuite or 3.2 metre tender garage.

The X50 will deliver class leading fuel economy and range, high speed cruising capabilities and the latest technology from the world leaders in shaft driven performance. All underwater components have been heavily examined and designed with an obsessive consideration of drag reduction, creating maximum efficiency from the hull profile.

A critical performance factor inherent in all X-Series hull design, is the ability to neutrally balance the hull through the planing range. Volvo Penta D11 670mhp or 725mhp power units are located further forward to neutrally balance the hull and minimise shaft angle, resulting in increased efficiency from the 5 Blade Nibral propellers and a flat efficient planing attitude, this is made possible by incorporating additional accommodation aft of the engine room. Maritimo's world renown patented engine room molding technology provides more strength and weight reduction with added serviceability and reliability.

In addition to the trademark X series aft accommodation the new X50 has two large staterooms and ensuites in the forward accommodations.

The VIP stateroom design features a unique offset queen bed with VIP ensuite with dual access from stateroom and companionway. The X50 also features a large full beam master stateroom with queen bed standard (king optional), desk, day bed, and spacious ensuite. Integrated hull side windows present panoramic seascapes from each cabin and there are through hull portlights for further ventilation.

The saloon design incorporates optional three stage sliding vista windows that flank each side of the hard top letting in unprecedented amounts of light and ventilation when needed. An optional sunroof centered over the galley provides the ability to lighten and ventilate the saloon.

Maritimo being recognized for large household galley designs, have incorporated a spacious galley with island bench, upright fridge freezer, full height pull out pantry, microwave oven, dish drawer, trash receptacle, and multiple storage cupboards and drawers, suitable for all types of meal preparation and entertaining.

The performance inspired dashboard and helm, with optional second helm seat and available joystick docking systems, are designed for both comfort and control, instilling the overwhelming impression that it is designed to be driven. Maritimo Racing function and interface experience is noticeable in every detail of the design, catering for the most confident boater to new boat users.

The expansive cockpit features a starboard side entertainment unit and two opposing euro lounge units that can be combined to form an eight-seat protected dining area. Hallmark secure walk around decks enable safe passage to the forward deck entertainment area with lounge bed with folding backrests.

Built in Australia by leading craftsmen, we are dedicated to crafting a distinctive sport yacht of the highest quality. Stemming from its illustrious Maritimo bloodline, the X-Series inherits the timeless elegance and unparalleled abilities in the water of its long range motor yacht predecessors. Underneath the hand crafted wood, fine leather and clever ergonomics you'll find the best in nautical design that ensures simplicity, efficiency and cruisability. When it's time for deep-water action you'll find Maritimo's racing edge more than meets the demands of the sports and high performance island hopping adventure.
