## Overview

---

Davis's attention to detail goes beyond where the eye can see, and that ensures that the 48 Express is at the forefront of high tech, yet utilizes proven boat-building techniques. This 20-ton vessel features a solid glass bottom, Divinycell-cored hull sides, Nidacore decks and bulkheads, and a hull-to-deck joint that is screwed, epoxied and fibreglassed to withstand anything the ocean can throw at her. Also impressive is the fact that with tunnels, the 48 maintains the same seakeeping characteristics that has made Davis famous among sportfishermen. So while other builders continue to build boats using the same decades-old hull design, Davis continues to ensure that each Davis is better than the last.
