# DETAILED INFORMATION

---

---

## Broker Comments

---

This Offshore was purchased by the current owners in 2015 and used lightly in the Florida Keys. As you can see in the photos and virtual tour, MIMI is a spacious boat; her four staterooms accommodate eight. The interior of this boat has aged quite well. The teak interior in particular looks great.

If you are seeking a high-quality boat with respected pedigree, I am certain MIMI is worth your careful

consideration.

Buyers do not have to take my word for it...take these parameters to the MLS and search for yourself.

Four stateroom Motoryachts asking between \$400,000 and \$800,000 sizes 55-65' and model years 1995 - 2005.

**The search produced five boats in the entire USA and none of the five compare to this venerable 2001 Offshore 62 flushdeck!**

---

## Offshore Flushdeck

---

Offshore Yacht's flush deck 62 motoryacht is unique because this boat includes a handful of key features rarely found on a 62' boat.

This Offshore offers:

- Four staterooms. The Master stateroom, with walk around King size bed, is located aft. The VIP cabin on this boat looks like the typical Master stateroom found on average boats in this class.
- Full walkaround side decks. There is no teak found on the exterior of MIMI.
- Walk-in engine room. The engine room access is superior to other boats in this size range. Found opposite the Master Stateroom, the walk-in engine room is a feature rarely found on

a 62' boat. The stand-up space is easy to work in.

- Stand up lazarette, is located beneath the aft deck, where you would normally find the engine room hatch.
- This space is impressive, ample room for gear.
- The stabilizer fins and side thrusters are hydraulic.
- Twin generators.
- Huge flybridge.
- Yacht Controller.
- Flush deck layout makes for a spacious main deck.

## 62 Flush Deck History

---

Offshore Yachts built a handful of flush deck yachts. The factory added a Euro style transom to the successful Offshore 58' hull. Adding the extension made space for the large Lazarette found beneath the aft deck. The Euro style transom design ensures getting to and from the swim platform is as easy and safe as possible.

Check out this Boating World article from 1996 for their review on the Offshore flush deck. [Offshore 62 – Boating World.](#)

## Construction

---

Hand laminated bi directional fiberglass reinforced with vacuum bagged corecell in hull & structural areas above the waterline.

- Uni-directional laminates at engine stringers & hull door openings.
- Double laminations at chine, keel & running hardware locations.
- Four full length longitudinal engine stringers & athwartship reinforcing stringers as per design.
- Cored 1 1/4" main bulkheads padded at hull & bonded.
- Hull to deck connection mechanically fastened & bonded.
- Vinylester hull laminate for osmosis protection.

## Design Features

---

- Deep & finely veed forefoot.
- Low silhouette & center of gravity.
- Flared bow section with radiused spray chine.
- Full walk around decks with deep bulwarks.
- Covered side decks.

- Port and starboard hull doors.
