# DETAILED INFORMATION

---

## MAIN DESCRIPTION

---

SHELL OM is a Mainship 350 that is just short of 40 feet in length. This is possibly the best looking Mainship around. She has a self launching dinghy system, wide transom door to enter from the swim platform, spacious cockpit, integrated stairs, Stamoid enclosure, strata glass, teak and holly sole, new carpet, custom mattress, custom paint just to name a few. Very clean and highly sought after Great Loop vessel that will catch all the eyes.

## WALK TROUGH OVERVIEW

---

Mainship Trawler has a large fully enclosed flybridge with great seating, electronics and storage. The aft flybridge has gold colored rod holders outdoor chairs and collapsible cocktail tables. Easy to travers integrated illuminated stairs with aluminum hand rail makes this one safe, comfortable and easy. Walking around the vessel the wide high gunwale keeps you secure allowing for easy deployment of the ground tackle when spending time off shore. Below the bridge is a Saloon that fits the motif of a traditional nautical beauty. Matching recliners facing the flat screen, end table and custom made flip top storage box. New head, custom hand made high end fabric mattress, in the Master State Room on the Center line Queen. Matching décor professionally composed. Guest suite is comfortable and cool with its own port light and hatch. The cockpit is spacious and has storage in the outdoor furniture and the grill is located ingeniously near the outside hammock chair. The Palm Beach design keeps you free from wood work and saves time for docktails. The one of a kind Mainship currently has a self deploying davit system. A European helm ridged bottom fast dinghy, and an incredible WIFI system is available for additional consideration.

## DECK LAYOUT

---

The swim platform has been addressed on this Mainship and has inspection ports for maintenance. Transom door center or cockpit with stainless latch is concealed by high gloss faux wood transom. Beneath the Cockpit floor is a 8 kw Kohler Generator that handles the air conditioners, refrigerator, TV and more. Cockpit has a hard top to keep you cool and dry, steps on both sides of the large sliding glass door that flows to the Saloon. Steps on Port & Starboard lead beyond saloon windows past the side access (Great for Locking Systems on waterways) to the broad bow. Safe and stable is the feeling you get approaching the windless, a wash down system is conveniently located next to the chain locker. The vessel has matching dock lines, blue LED lights in the bridge, courtesylighting for lighted walk paths and bow thruster. At the dock or underway she makes a statement.

## PROPULSION

---

Powered by the reliability of Caterpillar pushing 300 HP. the single screw can reach speeds of 13 miles per hour. The efficiency of a single diesel, diesel generator and bow thruster make her easy to control in comfort. Cruising speed is 7.5 to 8 depending on wind, current and load. Fuel burn is light and varies based on speed, a great savings for extended cruising. The engines are run on a consistent basis and the boat has a live aboard Captain that maintains her.

## ADD ONS AND EXTRAS

---
