SPECIFICATIONS

Overview

Watashee has been highly maintained by her two owners since new. In 2016 she was repainted at Merritts and all her exterior varnish was stripped and built back up. Also at this time the bottom was soda blasted and re barrier coated and all of the running gear was serviced. With only 1500 hours SMOH on the engines and extensive care received through out her life Watashee is ready to be enjoyed by a new owner.

Basic Information
