- Communications - PepWave Max Transit dual SIM card Cellular Wi-Fi System
- Audio/ Video Electronics; Apple TV added to Crestron System available throughout vessel
- Tender Tubes (2020)

HIGHLIGHTS AND FEATURES

- (2) Air Conditioning Seawater Intake Pumps and (2) Air Conditioning Seawater Intake through hulls with crossover
- Stern Thruster
- Naiad Stabilizer At-Rest System
- Camera for Towing (Pan/Tilt/Zoom)
- DVR System for recording /accessing video remotely
- Cameras on port/starboard side door changed from fixed to Pan/Tilt/Zoom

Electronics:

- Pre-Wire install “Latin” option to allow TV Reception in parts of the Caribbean
- Electric pop-up LCD TV to Pilothouse on starboard forward

Exterior:

- Teak Decking starboard/port side from side doors to bow

Interior:

- Mahogany on main staircase walls to staterooms on both sides, instead of wallpaper

Galley/Dinette:

- Sub-Zero wine fridge on Island
- Sub-Zero refrigerator drawers on Island
- Pocket door to close off Galley area
- Skylight over Island area
- (4) Bar stools in Galley, instead of two

Salon:

- 55" Pop-up TV in cabinetry

Master Head:

- Rain Shower Head

Pilothouse:

- Added 2nd Stidd Helm Chair

Flybridge:

- Teak Flooring to Deck and Steps (under Hardtop to Hot Tub area)
- 3-Sided Enclosure (1/2021)
- Drop-down TV (in Hardtop)
- Added 3rd Stidd Helm Chair with power option

Aft Deck:

- Child Gates

Boat Deck/Tub Area:

- Gypsy Awning

Fore Deck:

- Sunning Pads on Bow

Swim Step:

- Towing Eye and reinforced Cleats for Towing

Rear Crew / Utility Area:

- Brownie Dive Compressor 3rd Lung, Model #YP55DF-M (5hp)

AFT DECK

- TV 42" Exterior LCD
- Satellite Receiver
- (2) Pairs of speakers
- Crestron 2-Way Touch Panel Control
- Refrigerator: GE
- Boarding Gates: Boarding gates, port and starboard
- Bar: Includes refrigerator, stone top, sink/ice bin with hot and cold water, bar storage, and a barware cabinet in portside bulwark

- Lighting: Overhead recessed lights
- Flooring: Marble tile in port and starboard companionways and aft Salon entry

PILOTHOUSE

This vessel is equipped with modern navigation and communications equipment suitable for worldwide voyages. This equipment includes satellite based position and speed information, magnetic and true heading data, radar, electronic charting and depth finding. Communications equipment spans numerous transmission technologies in compliance with safety regulations and to maximize contact with shore side and marine stations, enhancing one's ability to communicate from any location

- (1) Pair of speakers
- Crestron 2-Way Touch Panel Control
- iPod Docking Station
- Whole Boat Audio Signal
- Helm Station Wheel: Wooden 24" Destroyer type
- Engine Controls: MTU Integrated Control Head
- Engine Instrumentation: DDC/MTU
- Bulkheads: Majilite (or equal)
- Headliner: Majilite (or equal)
- Control Console: Black Spinneybeck leather with leather dash hoods
- Settee: Fabric/leather
- Settee Table: Crotch Mahogany top and Sapele edge with high gloss finish and stainless steel grab rail
- Defrosters: Three (3) heater/defrosters on Pilothouse console
- Windshield Wipers/Washers: Exalto windshield wipers with electronic control panel with synchronization and washers for three wipers

- Helm Chair: Crown Mariner helm chair with fabric or leather which matches settee
- Counter: Leather
- Bronze Mirror: Aft bulkhead
- Joinery: Bookcase: Built-in
- Fax Cabinet
- Desk: Crotch Mahogany top and Sapele edge with high gloss finish and stool
- Chart drawers adjacent to console
- Helm Console
- HVAC: With linear slot diffusers in soffit and overhead
- Windshield: Mesh sun screen cover
- Clock/Barometer – Weems & Plath, 6" Quartz clock dial, 6" Barometer dial
- Flooring: Stain resistant carpeting
- Computer: Computer with wall mounted monitor located at Navigation station (desk) in Pilothouse
- New Carpeting

NAVIGATIONAL EQUIPMENT

- Nobeltec Navigator 2021 / Transas Navisailor available
- WX Work XM Weather
- Navigation/Electronic Chart System: Transas Navisailor NS4000 ECS with 19" LCD display Navigation/Electronic Chart System (Backup): Furuno Maxsea charting system in the Pilothouse and at Flybridge
- Radar: Two Furuno FAR-2117 X-Band Radars with 19" LCD display and one repeater on Flybridge
- Depth Sounder: Furuno FCV1200BB-P with 15" LCD monitor
- GPS: Furuno GP-150D at Pilothouse Dash and at Pilothouse Desk
- Wind, Depth and Speed: B & G HS3000 includes wind, speed, depth, and heading displayed on full function displays in the Pilothouse and Flybridge
- Compass: (1) Ritchie Globe Master F-600 in Pilothouse, and one Furuno Rate Sensor for true heading data
- Aft Depth Sounder: Furuno RD-33 Digital Display Depth Sounder with Smart Sensor. (Located in Captain's Quarters)
- Autopilot System: Simrad AP50 in Pilothouse and on Flybridge

COMMUNICATIONS

- SHIP TO SHIP/SHORE
- VHF: (2) Icom M604 DSC VHF radios in Pilothouse and one command mic on Flybridge
- VHF: VHF radio installed in tender
- SSB: Icom M802 w/ automatic antenna tuner

- G.P.I.R.B.: McMurdo Sat +
- Loud Hailers: (1) Loudhailer, one intercom to Aft Deck integrated to PH radios

SATELLITE COMMUNICATIONS (SATCOM) COMPONENTS:

- Internet: Internet connectivity thru Omni Access Network System. Wireless access is available throughout the vessel. Connectivity is provided by, Mini VSAT, 3G Cellular, Wi-Fi Amp, Fleet Broadband and shore connection located at aft bustle
- Weather Information: X-M Satellite Weather running on Intellisea computer with OCENS WeatherNet and GRIB Explorer weather monitoring software on ships computer
- Pepwave MaxTransit Dual SIM Card Cellular Wi-Fi System

TELEPHONE SYSTEM:

Telephone System: Panasonic (PBX), 20-Station Digital Phone System. All stations have speaker phones for intercom and paging. Phone system is connected to Satcom, Vsat VoIP, Cell Phone and Shore Phone for voice lines throughout. Cordless phone units (five total) are located in the Master Stateroom-1, Pilothouse-1, Galley-1 and Salon-2 (one intended for Aft Deck). The Pilothouse has a fix-mounted phone with an LCD display. A single shore connection is provided at the port bustle with a 100 ft. combo Telephone / CATV shore cord

- Cushions: Aft Deck settee and bar stools, Bow keyhole settee and lounge, Flybridge settee, Hot tub cover and Boat Deck sun lounge. Sunbrella fabric cushions with dry fast foam fill
- Flagstuffs: Stern flagstaff rigged with 1/8" nylon line, and bow jack staff rigged with 1/8" nylon line; both rigged per standard yacht practice. Courtesy flag halyards are on the mast
- Passerelle: Steelhead Passerelle, Hydraulic
- Swim Ladder: 4-Step swim ladder
- Wheel Puller: for vessel's propellers
- Tool Box: (8) Drawers with tools - (Engine Room)

SAFETY EQUIPMENT

- Life Raft: (2) 8-Man Zodiac life rafts
- Life Preservers: (13) Coast Guard-approved adult life preservers with water lights, and (6) Coast Guard-approved child life preservers with water lights
- Ring Buoys: (2) 24" Diameter ring buoys secured on exterior of vessel
- Flares: Flare kit included
- Bell: Perko 179 Ship's bell per Coast Guard regulations, stored in Doghouse
- Safety steps: Recessed into Transom
- Fire Extinguisher: Dry chemical type to be installed in suitable locations; three - 10 lb., five - 5 lb., and five 2½ lb.
- GPIRB: Northern Airborne Technology NA-S1520

PAINT

- Topsides: Alexseal 501 top coat. Hull and house color is Stark White. Boot stripe is acrylic high-gloss black
- Bottom Paint: Consists of Seahawk black antifouling bottom paint over an epoxy barrier coat

SOUND ATTENUATION

- Westport Shipyard has developed a 'whole sound reduction' plan that incorporates installation details and insulation schedules that significantly reduce noise & vibrations throughout the vessel
- Engine Room: The sound package consists of barriers and absorptive insulation (material - Soundown) in addition, equipment, piping and wiring is solidly mounted to isolate and prevent vibrations that transmit noise
- Watertight Door: Noise attenuating/watertight door: Pacific Coast Marine
- Isolation Mounts: Various, per equipment manufacturer specifications
- Accommodation Sound Dampening: Noise transmission between spaces in the accommodation areas is achieved using sound 'tight' construction. This system utilizes acoustic fill (Whisper Walls 3M Thinsulate) in double wall bulkheads, and isolation mounting (material - Sylomer) of equipment and piping that may transmit vibration

DIESEL FUEL SYSTEM

Approximately 5,500 gallons (US) of diesel in one tank separated into three compartments with a transfer system including a pump, meter and distribution manifold. All diesel consumers draw from the center compartment (Day Tank). During

normal operations fuel is transferred to the day tank via the transfer pump. Fueling process is via either of two deck fill locations amidships, port or starboard side. Tank is vented to atmosphere on both sides of the vessel. Tank level monitoring is via electronic sensor and display with high/low level alarms. Tank is all aluminum, welded construction with internal baffles and three divided areas

- Pumps: Fuel transfer pump will have a flow meter and timer
- Fuel Filters: (1) Dual Sea Pro 8 with isolation valve for each main and one Dual Racor 75/500 for each generator
- Fuel Gauges: Sight tubes located in Engine Room and IntelliSea monitoring
- Fuel Tank: ¾" 5086 alloy aluminum separated tank with dual fills and standard vents, IntelliSea monitoring and sight tube level indicators. Approximate capacity: 5500 gallons

GASOLINE FUEL SYSTEM

The Gasoline System consists of a tank, an air diaphragm pump, and hose with nozzle to transfer the gas. The hose, nozzle and pump, along with the tank fill are located under the hatch centered on the Swim Step deck

- Tank: Aluminum, 100 gallon
- Pump: Air diaphragm

LUBE OIL SYSTEM

The vessels main engines and generators can be serviced utilizing and onboard lube oil change system. New/used oil tanks are fitted in the under sole on centerline in Crew Mess. The new oil tank can be filled directly into tank, stbd side. The quick connect hose and portable pump are used to transfer lube oil to/from locations

- Tanks: Located under sole in Crew Mess area. Lube Oil – New: Aluminum, 50 gallon. Lube Oil – Used: Aluminum, 50 gallon
- Pump: Portable and stowed below the starboard generator
- Fittings: Stainless quick connectors

HVAC SYSTEMS / AIR CONDITIONING

The interior of the vessel is kept at a constant temperature through the use of a seawater cooled/heated reverse cycle, treated water HVAC system. The capacity is 24 tons and is distributed throughout the vessel via individual room air handlers of various sizes and BTU ratings. There is one (HVAC) Keypad the two air handlers in the Master Stateroom, one for the two air handlers in the Galley, and two for the four air handlers

that serve the Salon; all other air handlers are each controlled by a separate Keypad

- HVAC: All interior areas air conditioned by at least one HVAC unit. Master & Guest Staterooms have chill chaser units
- Ventilation: Eight exhaust fans, two in the master head and one in the other heads
- Marine Air HVAC System: Four compressors and heating pump, independent seawater intake
- Chillers: 230V-1PH-60Hz, 24 ton
- Air Handlers: 230V-1PH-60Hz, various BTU as required by volume being treated, utilizing variable speed hi-static DC blowers
- Make Up Air: For cycling air through the vessel interior

BILGE SYSTEM

- System consists of five remote-mounted bilge float switches and IntelliSea alarms on all float switches
- Bilge Pumps: Fixed bilge pump system includes two electric 230V AC pumps with 1 ½" PVC lines to each major compartment with check valves, strainers, and priming system

FRESHWATER SYSTEM

The system is comprised of multiple divided and baffled fresh water tanks, two AC supply pumps, suction supply, service and distribution manifolds, two reverse osmosis watermakers, and associated valves, filters, expansion tanks, regulators and gauges. Freshwater wash downs with quick connects are located on all decks

- Pumps: (2) 220V AC pumps and one 24V DC backup pressure pump with tank
- Water Tanks: Are stainless steel with interior epoxy coating and an approximate tank capacity of 1,000 gallons. IntelliSea monitoring system and sight tube level indicators
- Watermaker: (2) Sea Recovery SRC AWC 1400-2 (2,800 gallons per day total)
- Water Filters: (5) Micron sediment filters with UV sterilization light
- Water Heaters: (2) Dual element, fast recovery. (1) 80 gallon and one 38 gallon
- Horn Strobe Alarm added to Headhunter System

WASTE WATER SYSTEM

Black and Gray water is routed to an FRP Tank. A certified Marine Sanitation Device (MSD) is installed for treatment of all wastewater Tank level monitoring is via electronic sensor and display with level alarms and all tanks are vented at the boot stripe. Discharge is via MSD or direct overboard via diaphragm pump. Also, a dockside

connection is located just aft of the starboard fuel fill

- Pumps: High capacity solids handling AC diaphragm type
- MSD: Headhunter MSD treatment with PLC touch screen and Auto-Chlor treats black and gray water
- Holding Tank: Tank is composite with an inspection hatch. Tank is electronically monitored and has an approximate capacity of 600 gallons. Headhunter MSD treatment with PLC touch screen, and Auto-Chlor treats black and grey water
- Gray Water Sumps: Two approximately 15 gallon gray water boxes fitted with screens; also, supply and discharge lines for all showers. Forward & aft sump tank will have sump pumps and 24V DC back-up pumps

COMPRESSED AIR SYSTEM

- The vessel has a compressed air system for powering the ship's whistle, gasoline dispensing pump, and machinery spaces for air powered tools
- Compressor: SpeedAire 3 hp with 20 gallon tank
- Air Hose: 18' Self-coiling with quick-disconnect

MOORING AND ANCHORING

General:

- Bitts: (8) 1'-7" stainless steel
- Hawse eyes: (6) Stainless hawse eyes forward, two stainless steel hawse eyes at swim grid, plus two additional cleats at stern for shore boat tie-off
- (8) Fender cleats: (4) Per side, with stainless steel rub rail

Bow:

- Dual Poole style 300 lb. polished stainless steel anchors with polished stainless steel anchor plates
- (1) 250', one 350' x 5/8" chain for two anchors, 5/8" chain rollers, stoppers, and devil's claws
- (2) VWC 4500# Maxwell, hydraulic winches with band brakes
- Anchor chain wash-down system

Stern:

- (2) Maxwell 3500# 24V DC capstans

VESSEL ALARMS AND MONITORING

VESSEL INFORMATION CONTROL SYSTEM

Vessel Information and Control System: IntelliSea Model IS-1. Fixed panels are located at convenient locations providing operational information and alarm conditions with a programming panel located in the Pilothouse. IntelliSea offers a vessel wide Wi-Fi network, accessible with password for laptop display of monitored information.

Items on safety control panel as follows:

- (14) Combo smoke/heat sensors: Combo sensors are located in all staterooms, interior public and crew areas
- A Heat Sensor in the Engine Room
- (4) CO alarms: In crew staterooms, Capt. Stateroom, and Crew Galley/Lounge
- Security system: The Aft door, Crew door, Salon door, port and starboard doors, Flybridge hatch, and VIP hatch monitored for unauthorized entry
- Tank levels monitored; 3 fuel tanks, 2 fresh water tanks, both gray water sumps and black water tank (Gray water boxes have alarms on DC pumps. Black water tank alarmed at 75% and 98% full levels.)
- Monitoring of AC supply switching from all available sources with Volts, Line 1/Line 2 Amps & KW monitored for each generator
- All five bilge switches monitored for water detection

ELECTRIC SYSTEMS

- Batteries: All AGM cell type batteries. (2) Banks of two 8-D, 225-amp batteries, wired in series for starting main engines (total of four) and (2) 8-D, 225-amp batteries, (1) for each generator starting. (1) 24VDC battery bank (two 8-D, 225-amp batteries, wired in series) for ship's service
- Battery Chargers: Chargers include (1) 95-amp 24V DC for ship's service bank, (1) 45-amp 24VDC for main engine bank and one 20-amp 24VDC for generator bank
- Main Distribution Panel: Located in crew area. Designed to be functional with all necessary circuit breakers and transfer switches and, to provide proper operation of AC and DC circuits
- Distribution Panels: Located throughout the vessel, distribution panels have engraved faceplates
- Shore Power: (2) 100 amp single phase shore feeds with Glendenning Cablemaster cord reels at port bustle (incl. two 100 ft. cables). TV and phone outlet located at port bustle with (1) 100' TV/phone cord
- Shore Power Converter: (2) 36Kva 60 Hz, single or three phase input service with a 40-70 Hz frequency and a voltage between 170-520VAC. The converters will auto-configure for the applied power form
- Frequency Converter: (1) 10Kva 50 Hz frequency converter for dedicated 50 Hz

outlets

- Power Conditioner: (1) 10Kva 60 Hz frequency conditioner for audio/video power use & backup power supply
- Lightning Protection: With hull CuNi ground plate and installed air terminal
- Recessed Light Fixtures: LED fixtures
- General Lighting: Vimar and Leviton receptacle and switching throughout.
- Reading Lights: All staterooms have 110V reading lights and 110V receptacles for table lamps
- Indirect Lighting: 24V DC and 110VAC rope lighting
- Shower Lights: 24V with white trim
- Pilothouse Chart Lights: (3) 12V red DC chart lights: (one at navigator's area, one at captain's desk, and one at dash flat over stairs to main deck)
- Searchlight: (1) Carlisle Finch 200 Watt Xenon located on mast with dual controls
- Exterior Lighting: The Fore Deck, House sides, Aft Deck stair and Flybridge overhead lights are all controlled from the Pilothouse switch bank. The Aft Deck Lights are switched locally
- Navigation Lights: Perko
- Crestron: Lighting controls with switched and dimmed Crestron automation

MAIN ENGINES / LINE DRIVE

- Main Engines: (2) MTU/DDC 16V2000 engines, rated at 2000 hp, four-station MDEC controls, integrated station selection and shifter control, MDEC synchronizer and underwater exhaust; 3300 hours
- Generators: (2) 65KW 1800 rpm Northern Lights with compound mounts, sound shields, InSep (internal water/exhaust separation/mufflers). Water temperature, oil pressure and hour meters are installed on main distribution panel in Crew Quarters. Both generators have remote start/stop in Pilothouse. PTO and hydraulic pump installed on both generators for full redundancy; Stbd. Hours 6365, Port Hours 6247
- Bow Thruster: American Bow Thruster 16"-40HP hydraulic single prop with four-station controls
- Rudders: Cast urethane foil-shape rudders with stainless stocks; 7.6 square feet
- Rudder Bearings/Seals: Fiberglass sleeves with PYI bearings, dripless seals, and spare seals in carrier
- Propellers: 48" Michigan Nibral 5-blade custom wheels
- Shafts: Four-inch Aquamet 22-H.S.
- Shaft Log and Packing Glands: Shaft logs to be one-piece fiberglass construction with PYI dripless packing gland with water crossover from engines. Shaft log will be bonded into hull
- Struts: Cast bronze of Vee design
- Steering: Jastram power steering with dual, engine-driven pumps, and four steering stations: Pilothouse, Flybridge, and Port & Starboard wing stations.

Pilothouse and Flybridge Stations include RAI indicator, horn, start/stop buttons, and thruster controls. Wing Stations include RAI indicator, start/stop buttons, and thruster controls

- Bonding: All bronze thru-hulls to be bonded with #8 or heavier wire and connected to transom zincs and shaft wipers
- Zinc Anodes: Are installed on hull at transom and secured on brass studs and tied to the bonding system. Included are shaft and strut zincs

STABILIZERS:

- Stabilization while underway is provided by a pair of fins located approximately amidships and powered hydraulically by an engine driven hydraulic pump. Control is by modern digital system located in the Pilothouse
- Fins: Naiad Model #525, 12 sq. ft. fins, single station control, with oil level warning, unloading valve kits and dual pumps with gauge kits

EXCLUSIONS

SEAHAWK is a registered name and does not convey.

Exclusions are to include but are not limited to, all owner's personal items. A detailed list of exclusions will be provided at the time of sale, upon written request.

Исключения

При продаже яхты исключаются личные вещи владельца.

Отказ от ответственности

Компания предоставляет описание судна или яхты добросовестно, но не может гарантировать точность этой информации, а также не ручается за техническое состояние. Покупатель должен проинструктировать своих агентов или оценщиков исследовать представленную информацию более подробно, по собственному желанию. Продажа судна или яхты, изменение цены или снятие с продажи будет происходить без предварительного уведомления.
