SPECIFICATIONS

Overview

The third hull of the Baglietto DOM133 is currently under construction and available for sale with delivery in April 2023. This 40-meter motor yacht is an ocean-going passage maker with a shallow draft (2,10 m - 7ft) and aluminum hull that has been tank tested to seakeeping and efficiency. With an 8.70m beam (29ft), the DOM133 has a very generous interior volume and boasts an impressive array of yachting lifestyle features not common in yachts of this size. The main deck layout, for instance, has been developed to ensure optimal flow between the interior and the exterior areas while also enhancing the convivial atmosphere. The main salon features full-height and openable panoramic windows as a natural extension of the open aft deck. Another major feature is the panoramic glass staircase integrated in the main deck. An amazing 2-levels beach club with flush pool equipped with a movable floor that, when not in use, can be leveled with the surrounding flooring, completes the unique layout. The yacht can be equipped with a propulsion system that combines traditional diesel engines and e-motors depending on operational needs to reduce consumption and environmental impact while increasing efficiency and onboard comfort.
