Total Heads: 1

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Cummins

Model: 380 HO Zeus

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Description

Manufacturer Provided Description The 450 Sundancer advances Sea Ray's tradition of forward thinking with innovative and trend-setting features like its standard Zeus propulsion system with joystick control, a fiberglass hardtop with retractable sunroof, a cockpit entertainment center with optional grill and TV, and a designated "media room" in the cabin. Add all these things together, and you could have the most adaptable, user-friendly express cruiser on the water. Starting topside, the 450 builds upon the versatility of its Sundancer siblings with a seamless hardtop and bonded-in windshield that provide unsurpassed climate control thanks to a forward vent, sunroof, and optional cockpit air conditioning/heating. The benefit is comfortable boating in all kinds of weather. Two, doublewide benches with flip-up bolsters and armrests serve the helm and port console. The helm itself comes with a full complement of driving and navigation aids to make operation easier than ever, from the SmartCraft VesselView display, to the Zeus joystick control, to the amazing Skyhook station-keeping feature. Twin diesel Zeus pod drives are also available either with the QSB 380's or the QSB 480's, allowing customers to personalize their power depending on how and where they boat. Leisure possibilities abound at the large, U-shaped cockpit lounge with removable table. The aft-most backrest of this seat is split, and the two sections pivot open to create an extension of the sun pad, which has abundant storage below for lines, fenders, and other necessary items. On the starboard side of the cockpit, a big, L-shaped wet bar with icemaker will keep everyone hydrated, and owners can choose to add an optional grill, refrigerator, and removable 19" flatscreen TV to create an "outdoor galley" atmosphere. Under the sleek exterior of the 450 lies a classic-contemporary interior, with top-of-the-line cabinetry from Sea Ray's Cape Canaveral Woodworking and Finishing Facility, Ultraleather seating, brushed chrome accents, and optional wood floors. Ambient light from the oversized hull windows and skylight gives a natural glow to the earthy materials used in the cabin. The forward stateroom features a full-size island V-berth with memory foam mattress and electric extension and Posturepedic backrest, plus a Shoji-style sliding door and separate head and shower compartments with tile floors. The main cabin houses a spacious galley with stainless-steel appliances and loads of storage along the port side; to starboard, a dining area with folding table easily converts to a sleeper. The 450 features a unique media room abaft the salon that comes complete with theater seats, accent lights, and an entertainment system boasting a gaming system port, MP3 port, DVD player, and a 32-inch TV. If it's true surround-sound feel you're looking for and a large-screen experience, select the optional entertainment package that offers the Bose 3-2-1 System and 37-inch flatscreen. Those two options will surely keep any child or adult happy. A pair of ottomans serve double duty. These ottomans not only have storage inside, but the tops are reversible - one side has a wooden tabletop; the other is cushioned. You can either place your drinks and snacks on the table side, or flip it over and throw up your feet and relax! (There are also hanging lockers to port and starboard, as well as a storage cabinet). The theater seats convert to a double berth by way of their slide-out base, and a curtain provides

nighttime privacy. A long list of options allows the owner to rig the new 450 Sundancer with advanced electronics, generators, teak exterior decking, a foredeck sun pad, hydraulic-lift swim platform, rod holders, and several choices of upgraded stereos and TVs throughout. Brokers Comments: There are distinctive elements that separate this particular boat from others that may currently be offered for sale. Firstly this is a freshwater boat, which has been kept on the St. Lawrence River and cruised extensively throughout the Great Lakes. The mechanicals and the yacht like finish show no signs of the corrosive effects of saltwater; no pitting or rust. Always kept under cover in a boathouse, for both summer use and winter storage this boat's fit and finish is like no other. Extensively cruised by its original owners this vessel has turned heads from Quebec to Georgian Bay and through various canal systems and lakes. Passages through Lake Huron, Lake Erie, The North Channel and back through the Welland Canal have made several boating seasons memorable for the owners. The finish on this boat is exceptional partially because it has been in a covered boathouse when not out on the open water and in particular because of the owner's pride in keeping the boat polished and waxed twice a season. As the photos show and a personal inspection will verify the hull and topsides have a showroom finish, which is rare because of the UV protection afforded this boat. An added feature is the Flexiteek Synthetic helm deck and swim platform flooring that was installed as an owner option. The warm look of teak without the maintenance and the added anti-skid performance is a nice touch. Close examination of the running gear and mechanicals on this boat are consistent with the overall appearance of the exterior finish; clean and neat; everything you would expect from a well cared for Sea Ray with all the extras. Complete systems analysis and information through Mercury Vessel View allows you to display engine information, genset, sounder, and much more. It has more information and data on boat and engine functions than any other system in the boating industry: rpm, speed, fuel flow and efficiency, temperature, trim, and more.

Overview

FEATURES Electronics:

- Raymarine E120 Chart Plotter
- Raymarine RAY240 VHF and Remote
- Mercury Precision Pilot Auto Pilot with SKYHOOK and Joystick Maneuvering
