Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 3

Manufacturer: Mercury

Model: Cold Fusion

Engine Type: Outboard

Fuel Type: Gas

DETAILED INFORMATION

Broker Comments

This unique design delivers the accessibility of a walkaround with the visibility of a step-up helm and forward cockpit seating, while providing the sexier lines and profile look of a cuddy. Moving the head out of the cabin created roomier overnight accommodations with a full galley, extra storage space, and a convertible dinette berth. Hidden under the console, the innovative new head is unlike any on a boat of its size, featuring a separate stall shower with space saving retractable commode, elegant vanity, and spacious dressing room. You can expect the same smoothness on the water that every Intrepid is known for. She delivers a smooth, dry ride, and maximum deadrise as a result of Intrepid's industry-leading transverse stepped hull design. Vacuum-bagged, infused, and hand laid knitted uni-and multi-directional fiberglass laminates, foam-cored hull sides, transoms, boat deck liners, and woodfree construction provide unprecedented strength, rigidity and safety without the performance-robbing weight. This is the finest example of an Intrepid 375 Walkaround.
