When looking to make the jump from land based living to the world of motor yacht cruising - many try to minimize the sacrifice of room and comfort. That's where these 40'+ motor yachts shine. Most buyers in the market for these Jeffersons are also considering Ocean Alexanders, Presidents or Hi-Stars for their very similar build and layout - nothing can compare to the room you get at this size yacht.

For this reason these boats sell very fast when a good and reliable hull becomes available. And, this also means that when you decide to upgrade to that Grand Banks or Nord Havn - you'll have no problem selling this boat.

The interior features rich solid teak cabinetry and trim. Wood parkay floors in great shape and maintained well over the years! This Jefferson was actually a fresh water Kentucky lake boat for the majority of her life minimizing the effects of salt water and corrosion. A huge plus!

Currently owned and operated by a professional airline pilot - Pilots and Engineers are the very best owners/sellers of boats - they never dismiss the importance of maintenance and never neglect staying on top of the preventative maintenance schedules to ensure safe and reliable operation. And this boat is no exception, and explains why the thoughtful owner got straight to work on investing in its future.

Some of the key maintenance/repairs/upgrades performed recently include:

Total Cummins service/overhaul:
