# DETAILED INFORMATION

## Manufacturer Provided Description

The Velocity 260 is a fast, compact boat based on designs by Steve Stepp, champion offshore racer and winner of more than one water speed record. With the custom Stepp transom and Pad Bottom, this boat can take curves at speed with no slippage sideways, and barely a nod to the chop. In the deep cockpit, handrails, foot pads, and bucket seats keep the crew secure. Once the boat stops, passengers can take advantage of the sunpad over the engine and the swim platform at the transom. The efficient cabin includes an overnight V-berth for two, a couple of comfy benches, a stereo system, an ice chest, and a Porta-Potti. The Velocity 260 is offered with a variety of muscular power plants and a series of custom trailers.
