Overview

"Neverland" is a true classic. This 1981 Gulfstar Sailmaster is a gorgeous example of what is possible when a distinguished design is meticulously maintained and invested in.

The most noticeable feature of the Gulfstar 39 Sailmaster's distinguished profile is its raised saloon. The boat's bow is sharp, the transom almost plumb, and its sheer very flat. Overall, the lines are clean and sleek. The interior is sometimes referred to as a single-stateroom design or a galley-forward design. Both descriptions are accurate and somewhat unusual for a beamy 39-footer.

Construction of the Gulfstar 39 Sailmaster is strong and of high quality. The deck and hull are fiberglass and polyester laminates. The deck and topsides are cored with end-grain balsa, adding stiffness while reducing weight. Below the waterline, the hull is solid fiberglass. On deck, the non-skid is molded-in, and all exterior wood—including eyebrows, handrails, toerails, companionway doors, and cockpit coaming tops—are solid teak.

The interior features ornate and detailed woodwork. Gulfstar enjoyed several patented woodworking processes, which allowed for a cost effective and beautiful method of joinery which rivaled the most expensive yachts of her day.

"Neverland" has been lovingly cared for and invested in. Some recent improvements include:

- Brand new full bottom job, stripped off old paint and barrier coat and repainted.
- Brand new standing rigging in 2016
- New lazy jack system
- New electrical charging system
- Added two e120 Raymarine monitors with a sea talk to communicate between the radar and GPS.
- Radar and GPS installed
- Resealed and refurbished all windows and hatches
- Reupholstered interior cushions
- Repainted deck in 2020
- New water pumps
- New Engine Starter
- New Engine Raycor fuel filter system
- Sails restitched 2018
