## Overview

---

With its combination of excellent sailing performance, easy handling under power or sail and luxurious interior accommodations, the Beneteau Sense 50 redefines what a performance cruiser is capable of. Lady Rae is a gorgeous well-maintained yacht, meticulously maintained by her owners since they took delivery of her. She was outfitted with many factory and after-market upgrades.

The spacious cockpit is incredibly well-equipped for ease of handling while underway and for entertaining friends and family. Just some of the features include dual helms, custom bimini, dodger, sun shades, lowering cockpit table with additional seating and a wide, safe stern entry from the pier or from the water.

The companionway door easily opens to expand your entertainment area from the exterior to the interior. As an added bonus, you only have to step down three, mildly sloped companionway steps to easily move from the outdoors to the interior! The interior layout is incredibly well-designed with the bright and open feel usually only found on large catamarans. The full beam salon features a panoramic view with comfortable seating and an over-sized galley area, fit for a gourmet chef. Forward, there are two spacious staterooms, two heads and bunk bed room in place of the starboard cabin. A separate crew berth is aft under the cockpit.

Under Sail, the Sense 50 was ahead of its time, featuring the maximum beam carried all the way aft with twin rudders, a feature now common on current day performance cruisers, which promotes fast and fun sailing. The hard chines limit heeling and promote righting moment, meaning your guests will be comfortable while cruising in the luxurious cockpit space.

See the full specs for more details and call the LISTING BROKER today to schedule a visit to see this lovely yacht! Showings are by advance appointment only.

**This is a very well appointed yacht with many new components replaced in the last few months. Ready to go!**

**Lady Rae was cruised in the Great Lakes from 2012-2018, and was kept indoors and climate controlled during the winter months**
