SPECIFICATIONS

Overview

Our ZAR mini™ RIB line has different sizes and versions. All boats can be equipped with a bow locker (“L”) and a flat double flooring (“D”). All boats starting from RIB11 have a bow locker and from RIB 12 a double flooring and a bow locker as standard features. Below these sizes (RIB8,9 & 10) you can choose what you need.

As optional equipment there are steering consoles and double seating (starting from RIB9 and only with double floor). You can also choose from a variety of sunroofs, bilge pumps, cushions and many more things. Please ask your ZAR mini™ dealer. He can serve you best.

The ZAR mini™ RIB line can easily pull water toys, waterski (from 25hp) and tubes with the two installed D-rings on the transom.

Every ZAR mini™ has three lifting Davit lifting points. One in the bow and two on the transom. If your ZAR mini™ has a bow locker, you will have four lifting points.

Due to the very light aluminum hull it can go very fast and plan easily with a smaller engine. The hull will not face any problems of Osmoses or gel coat defects like a fiberglass hull. It will also last longer and not become heavier during use. The aluminum hull is being specially manufactured and powder coated to resist corrosion and saltwater. You will have a lot of fun with your ZAR mini™ RIB.

All RIB inflatables from ZAR mini™ starting from RIB15 have a 5 layer reinforced high quality 1.100 dtex PVC material with a weight of 1.500g/m² and a thickness of 1.2mm.

Basic Information

Category: Boats

Sub Category: Tender

Model Year: 2021

Year Built: 2021

Country: United States

Registration #: N1099
