Hull and Deck Information

Hull Material: Other

Engine Information

Engines: 2

Manufacturer: CAT

Model: 12.9 Liter 6 Cylinder

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Vessel Walkthrough

The 50' Flybridge by Maverick Yachts Costa Rica is a standout at the dock. The first thing you will notice is the propionate house and sleek shear-line that compliments the construction. Then, as you step aboard the spacious cockpit, the square footage allows a beautifully laid out mezzanine, and plenty of room for the fighting chair to spin 360 degrees. Up to the bridge, the traditional style console and helm design is focused on visibility. Forward of the helm houses large amounts of storage and seating. To port a bench style seat accommodates 3-4 guest and allows for ample storage underneath.

Walking into the salon, the design possibilities are in the eyes of the owner. Multiple interior design options are available for customization and efficiency. With the traditional available space, the layout allows for ample storage and a clean look. A large L-shaped sofa, pop-up TV and galley housing all the refrigeration necessary for long trips or entertainment are just a few features that create an extremely efficient salon design.

Moving forward down the companionway, to port and starboard are over/under bunk staterooms and two full heads to match. All the way forward, the master stateroom contains large storage organized by hanging lockers and a large berth. Again, with options open, there are many designs available in the living quarters.

The 50' Maverick Yachts Costa Rica is built to be efficient so you can fish almost anywhere. Now is the time to schedule a design meeting to build the boat of your dreams.
