Masterbus Network

Twelve Batteries.

2 – Main Engines (8D - AGM),

5 – House Lifeline (8 D - AGM), 255 A/H each for a total bank of 1275 A/H.

2 – Bow Thruster (4 D - AGM),

2 – Stern thruster (4D - AGM),

1 – Generator (4 D – AGM)

Auto Battery charging System from shore power or Generator, (or inverter to charge thruster banks).

12.5 KW Westerbeke Diesel Generator set, New rebuilt generator head unit April 2012.

Side Power Bow and stern thrusters, 10.7 HP each, 24 volts. Each with independent battery and charger keeping them totally separate from House Batteries and recharged while cruising by drive engine alternators.

Dual 50A/120volt connection to Single 50A/250V 100 foot Shore Service and Cord, converter plugs to 30 Amp (single 30 Amp or with Y to connect to two 30 amp) and 15 Amp.

All 12 Volt lighting upgraded to LED. Dimmable LED lighting above both summer kitchen counters.

ELECTRICAL NOTE: There is no need to operate generator while cruising. The sterling chargers maintain the house batteries which provides ample power to the inverter to operate BOTH energy efficient refrigeration units and the 120 volt chargers for the thrusters while cruising
