## Overview

### A SPORTY YACHT WITH OPTICAL LENGTH

Fast, sleek and spacious, Akira is set to thrill speed enthusiasts and design aficionados alike. The first in Heesen's new 5700 Aluminium Class with FDHF, she reaches a rapid top speed of 22 knots. Defined by a shapely silhouette that includes an elongated profile and a completely new scoop-shaped stern, her beauty lies within the elegant and contemporary design, wrapped up in a high-volume 750GT.

# DETAILED INFORMATION

---

## First impressions

---

With her long waterline, lightweight aluminium structure, exacting weight control and highly efficient Fast Displacement Hull Form – a patented design devised by van Oossanen and engineered by Heesen – she will achieve the extraordinary top speed of 22 knots with relatively small engines (two MTU 16V 4000 M65L). A draft of just 2.3 metres makes her an ideal platform from which to explore the turquoise shallows of the Bahamas.

## Step aboard

---

Akira's inviting interior has been designed in harmony with her sweeping exterior lines. A free-flowing layout optimised for guests' experience creates maximum space with minimal effort. Environmentally friendly fabrics, such as wood and leather sit side-by-side with sumptuous materials and high-grade finishes, including metallic accents, dark pewter and glossy veneers. Conceived by British design studio Harrison Eidsgaard, the result is a warm ambience in a contemporary setting.

## Exclusions

---

Owner's personal belongings.

## Disclaimer

---
