# DETAILED INFORMATION

---

## Description

---

The Rhodes 41 is one of the most prominent yachts designed for fiberglass construction by Phil Rhodes and is an upgraded version of the classic wooden Rhodes 27 (waterline measurement) and the early BOUNTY's (I & II) built in California. The Pearson brothers bought the rights to produce the new version. These Rhodes 41's built from the new mold, were produced in Bristol, RI at the Pearson Yard. The Rhodes 41 is soundly constructed, a beautiful classic boat and amazingly seaworthy. WHITE WINGS won first in class in the 1994 Baldwin Y.C. Labor Day Race against 25+/- boats; a Rhodes 41 placed sixth in 1995 Marion - Bermuda Race 100 equal boats. PHRF-193. WHITE WINGS is a true classic and in wonderful condition. She has been continually upgraded and well maintained by her last two owners; one being a very well known Marine Surveyor. All important systems have been replaced or upgraded. WHITE WINGS may not be for everyone, but one look, if you are a lover of classic, pretty boats, may be all it takes. For complete details, please click on Full Specs. Thank you for your time and consideration.

## Overview

---

### Electronics

- Depthsounder
