SPECIFICATIONS

Overview

2023 Model coming 11/30/2022

The Navetta 64 will be launched during the next Cannes Yachting Festival 2020 and she will be the latest born sister that completes the already rich Navetta range, aiming at the needs of a specific customer target.

Even if she is the latest born of the family, she is a Navetta, and you feel it. But she is not just a "redesigned" Navetta, the new Navetta 64 is a new boat, that has been creating once again something extraordinary.

Cesare, which are the main features of the new Navetta 64?

Some novelties, that we could consider in line with the current trends, have aimed to chromatic choices, to the line of the new side windows, inspired by the Navetta 48, to the enlargement of the bow windows and to a different windscreen's inclination angle; these interventions may seem ordinary, but rather they represent the result of specific choices, that we take with our mind clear, as we love to do, without preconceived ideas, without setting prior technical boundaries. We choose what to do, and then we find a solution to do that.

For example, the enlargement of bow windows goes through a very challenging gluing match method between hull and deck, which is the result of our technical departments' inventions.

Basic Information

Category: Motor Yacht

Model Year: 2022

Year Built: 2022
