SPECIFICATIONS

Overview

Princess AVK is the second Sunseeker 155 Yacht launched by the Sunseeker shipyard. Having been built to a higher specification than slot one, she epitomised what the Sunseeker 155 Yacht project was due to be from conception.

Being a composite construction vessel, the space aboard feels much larger than other yachts of a similar size and GT. The accommodation set up is particularly impressive, with the master and two double guest cabins on the main deck and three further guest cabins on the lower deck. This is achieved by having the galley on the lower deck along with the crew cabins, laundry, crew mess and ships office.

The exterior spaces on the yacht are also particularly spacious for her size, culminating with the very impressive sundeck space. On top of this she has a fantastic lower deck beach club set up which also includes a class compliant sauna.

In terms of toys, she has a Williams 625 Diesel Jet which is stowed in the side access garage, plus two Sea Doo's located in the bow plus an additional stand-up ski. There is also a 8.5m Cobra chase tender with twin Suzuki 200HP outboards that which is available subject to final negotiation.

Princess AVK has an exceptional Mediterranean charter market record and is perfectly set up for either private or charter use.

Basic Information

Category: Motor Yacht

Model Year: 2016
