SPECIFICATIONS

Overview

A43 concept is a luxury speed boat concept that can be defined as the perfect fusion of performance and aesthetics. The main objective of this project is a combination of a traditional speed boat with the sleek, strong characteristics and high performance that you would expect from a modern supercar.

The main inspiration for the A43 concept was the legendary sports cars manufacturer Lamborghini, the company that built some of the most revolutionary and timeless supercars in history. The concept is the pure translation of the Lamborghini DNA into a speed boat concept in every way. Parts like the engine ventilation intake on both sides, angular lines, sleek proportions and aggressive styling of the Lamborghini cars are all integrated into the design of the new speed boat concept. Not to mention twin modified aspirated Lamborghini V12's in the concept's yellow trimmed exposed carbon fiber edition. The striking exterior lines are as functional as they are eye-catching; the air intakes, the windscreen, shape of the transom, and inverted bow all contributing to improving the boat's aerodynamics.

Basic Information

Category: tender

Sub Category: Tender

Model Year: 2023

Year Built: 2023

Country: Italy

Dimensions

LOA: 43' 6" (13.25mm)

Beam: 12.13
