SPECIFICATIONS

Overview

The concept behind the Greenaval series is maximizing the comfort and efficiency while keeping its eco-friendly abilities. Greenaval's differentiation on the electrical yacht market is given by its vast and modern furnished interiors are available for low initial investment. Sustaining both functionality and innovation, GreeNaval's main advantage is based on the material used for building the yacht, aluminum. Properly constructed, aluminum is the world's premium yacht building material combining light weight, high strength, easy workability and acceptable cost in one package.

Price starting at 1.040.000 Euros to 1.395.000 Euros (with all the bells and whistles)

GreeNaval offers 4 different options regarding the propulsion system, depending on the customer's needs and requirements.

Full green option / Electric motor / Hybrid system / Diesel engine

The Torqeedo electric propulsion systems offers a clean, green and quiet alternative to the classical motor-yachts. Sleek and assertively proportioned exterior, inviting and brightly lit interior, innovative system and modern features make GreeNaval the best hybrid motor-yacht on the market.

Naval Yachts GreeNaval 47 was designed for large families who care for the environment and for their budgets. Naval Yachts GreeNaval 47 as a hybrid yacht, as distinct from the other hybrid boats in its class, has an Torqeedo electric motor.

Naval Yachts GreeNaval 47 has 90 N.m. daily range and is able to cruise 10 hours by solar panels. In addition, thanks to Diesel generator, Naval Yachts GreeNaval 47 has 2.500 N.m range with 6 knots speed.
