SPECIFICATIONS

Overview

The flagship of the Black Pepper fleet, the Code 2 is the result of a design collaboration between Marc Lombard and Armel Tripon (winner of Route de Rhum 2018, and IMOCA 60 racer) to design an IMOCA 60 inspired offshore speed machine equally at home racing as she is to very fast cruising. Constructed in full carbon fibre with Axxon carbon rig, twin rudders, centreboard and water ballast, she is perfectly configured for racing and cruising duties on both sides of the Atlantic. Recently built by the Shipyard, she will be going into the water early September 2019, and from then visible in Mediterranean. She represents a very rare opportunity to acquire what would almost certainly be an ultimate line of honors boat, as well as fitting very neatly in the middle of the Mini Maxi class. With measurements for ORC, IRC, PHRF and CSA racing, as well as custom polar from Sailing Performance she is also race-ready for most of races including Offshores and Inshore.
