SPECIFICATIONS

Overview

From experience acquired in the super yacht segment and the big success of the 880, comes the Ferretti 881, the flagship model in the Ferretti fleet. This yacht is characterized by the innovatively design of spaces driven by the strong cooperation between Studio Zuccon International Project and Ferretti Engineering Department which designed two big open-view windows on the master cabin and wide spaces for the bathroom area, thus giving incomparable brightness to the whole cabin.

A big care has been dedicated to the open areas: from the hydro-massage bath on the flybridge, to the dining table in teak for 8 guests on the lower rear deck that allow enjoyment of the sea in a state of true relaxation. The large lounge area with sofas in leather and a wide central table, presents a functional and sophisticated design.

The 3 additional cabins are equipped to host up to 6 guests in maximum comfort and privacy, each with it's own bathroom. Two MTU engines power the new Ferretti 881 up to 30 knots and make the yacht the superior choice for those who fully live the sea.
