SPECIFICATIONS

Overview

The 56m Perini Navi is the most successful mega sailing yacht design of all time with 10 hulls delivered over 7 years. Fabio Perini set the bar high when he married the attributes of a large volume motorsailor with the naval architecture of Ron Holland to produce a comfortable and fast sailing yacht that can be easily managed under sail by one person. Perini created a floating masterpiece unrivalled in beauty, and whose form and functionality remains to this day as desirable as when she was launched.

Zenji offers 6 guest staterooms, sleeping 14 guests plus 6 crew cabins for up to 11 crew. The social areas aboard Zenji are uniquely functional at rest or under sail. The flybridge is the focal point for all once the vessel is underway, from which guests can enjoy a brisk sail in complete comfort and safety with unobstructed 360 degree views. The flybridge also offers sunbathing, a jacuzzi, guest seating and full navigation stations with dual helms. After sailing, guests may retire to the aft cockpit for cocktails and relaxation. This slightly recessed space provides just enough detachment from the outside world to provide intimacy while dining whilst still allowing guests to take in the surrounding beauty of any port or anchorage.

Another feature that Zenji offers, which owners and guests will quickly learn to appreciate, is the fold down side shell boarding platform which provides easy boarding access to the tenders from a protected and secure area port side aft. The platform also serves a modest beach club for water sports and swimming.

Zenji has been maintained to the highest standards her entire life and has just completed her 15 year ABS special survey in 2019 including full paint, masts, superstructure, hull, and bottom. Her rigging has been completely and thoroughly upgraded and inspected. Mechanical systems were serviced, engines overhauled, generators replaced. Zenji is standing tall, ready to travel anywhere in the world with her new owners in complete comfort and safety.

Basic Information
