SPECIFICATIONS

Overview

Project Aquanaut is a 60 feet Open-Style sport catamaran designed by Officina Armare with a purpose, in collaboration with U-Boat Worx. Aquanaut is an advanced multihull luxury speeder, combining a sporty yet elegant appearance and modern solutions, featuring a large deck space, open bar and AI Fresco dining areas located on aft deck and foredeck. Catamaran is equipped with dynamic inboard propulsion of 2x800 hp to offer an impressive speed potential of up to 45 kts and extreme stability at high speeds with the contribution of it's Deep-V hydrodynamic design. Concept of the Aquanaut is heavily influenced by SUV's (Sport Utility Vehicles) in terms of stability, versatility and sense of exploration or adventure besides having plenty of storage for the toys such as surfboards, Seabobs and diving gear besides the Nemo submersible. The large deck space can be further expanded at anchor with bulwarks for a larger area to host parties or to simply enjoy the life at sea to the fullest.
