## Overview

---

The most attractive feature of the Trojan 13 Meter Express is her massive beam. She's built on a fully cored, low-deadrise hull with broad chine flats (Delta-Conic Hull) and side-dumping exhausts. Her spacious two-stateroom layout is a blend of designer fabrics, curved bulkheads and white formica counters. High style then but dated now! The forward stateroom of the 13 Meter is large and equipped with air-operated doors. There are over/under berths in the guest stateroom and the dinette table in the salon can be electrically raised and lowered. Visibility from the helm is very good and the extremely large cockpit can entertain a large group. Large hatches provide easy accessibility to the engines.
