Overview

Catalina 425 The Catalina 425 is an all-new design that assumes the position in the Catalina line held by the legendary Catalina 42. Although it is new and contemporary in styling it is designed to endure in function and aesthetics in the Catalina tradition. The 425 incorporates all the valued hallmark Catalina features; a functional spacious cockpit, a comfortable, carefully detailed interior and all the "5 Series" featured that have redefined the Catalina brand. Price is a base price and does not include options. All of our new Catalina's are built and commissioned right here in the USA! The deck includes twin helms on performance pedestals with pre-stretched cables. The hull features six large fixed ports recessed into the hull for lots of light and visibility. A self-tacking jib and jib traveler are standard, and main and jib sheets are lead to the helm for efficient short-handed sailing. The forward owner's cabin features a large centerline berth with an elevating adjustable mattress. There are starboard and port aft cabins; the latter is easily convertible to a storage cabin with a gull wing cockpit hatch. A central accessible mechanical space provides excellent access to primary engine, generator, water heater and air conditioners, which simplifies maintenance and inspections necessary for systems reliability. Unique design features include a watertight StrikeZone™ collision bulkhead forward; DeepDefense™ rudder system for failsafe steering and a T-Beam MastStep™ structure, with all the benefits of a deckstepped mast and the strength of a keel-stepped mast. The SecureSocket™ mast support/chainplate system facilitates perfect load resolution and watertight integrity. Knitted fabrics create a stronger laminate without additional weight. Catalina's trademark lead keels absorb impact for safety and require less maintenance than other materials. All systems are designed following the recommendations and standards of the ABYC and IMCI to earn the highest rating of Category A - Unlimited Offshore. Length Overall 43'-6" Length of Hull 41'-8" Length at Waterline 39'-1" Beam 13'-8" Distance from Waterline to Masthead 63'-6" Draft Fin Keel 6'-8" Wing Keel 4'-11" Ballast 7000 lbs Basic Weight 17,500 lbs Displacement / Length 130 Sail Area / Displacement 21 Ballast Ratio 40% Rig Measurements Total with 100% Foretriangle: 914 sq ft Total with Standard 100% jib and roached mainsail: 940 sq ft I = 55'-9" J = 15'-8" P = 52'-0" E = 18'-0" Tanks and Capacities Water: Potable 114 gal Sanitary Holding Tanks: Total 54 gal Fuel: 56 gal
