## Overview

---

MAG FRANCE 90, a 90' sailboat has for the first time in this size category, a composite deck on an aluminium hull. Built by the MAG SAILING FRANCE shipyard, according to plans drawn up by Bouvet Petit with Olivier Flahaut designing the interior, the team of cabinetmakers from JFA Yachts moved to the Vendée to build the interior. MAG FRANCE 90 offers a spacious accommodation for eight guests in four double cabins with bathroom, plus rooms for the crew up to five members (a double captain's cabin plus a triple crew cabin with shared bathroom).

The yacht has undergone a refit in 2020. A new Volvo Penta D4-270I - G was installed. A new Whisper Power 10KW generator was installed to complement the originally installed ONAN 22KW rebuilt generator. All electrical wiring has been replaced with new ones. The yacht has a fully automated electrical backbone. The hull is freshly painted. New hatches have been installed, the upholstery is new in ivory white, the galley has been completely redesigned, fully equipped in stainless steel galley with Gaggenau equipment. Solar panels have been installed. MAG FRANCE 90 is a real blue water yacht.

Design category CE A-Ocean-12

SOLAS III / Q classification
