SPECIFICATIONS

Overview

This new 48m Baglietto all-aluminum superyacht bears the sign of Francesco Paszkowski Design. It is the perfect match between the stylistic features of the Baglietto’s FAST yacht line and the drive towards innovation that has always been part of the Italian shipyard’s DNA. Indeed, the Baglietto FAST 48 hybrid luxury motor yacht is characterized by a modern and aggressive design. It presents a hybrid parallel propulsion system that offers five propulsion modes by pairing diesel engines and e-motors with diesel generators and lithium-ion batteries. Main yacht characteristics: - maximum speed of 20 knots thanks to two MTU 16V2000M96L (Diesel Mode) - 5.600 nm maximum range (Diesel-Electric mode) - at anchor at zero emissions for up to 9 consecutive hours (Full Electric mode) - cruising on lithium batteries at limited speed for up to 210 minutes (Full Electric mode) The layout of the yacht interior has been conceived to fully enjoy life at sea and to blur the line between inside and outside. It is worth mentioning the main deck salon and the upper deck salon, both characterized by full height and fully openable windows, the 3 fold-down swimming platforms composing the Beach area, and the forward pool with UP/Down flooring system.
