SPECIFICATIONS

Overview

Since S/Y "NILAYA" was delivered she has proven to be the most successful high-performance superyachts launched by Baltic Yachts to date, both from a cruising and regatta perspective.

Her track record is exceptional which is testament to the team assembled for the build, with numerous regatta wins from the Mediterranean to the Caribbean she has set the bench mark for performance.

When she was launched she heralded a new breed of genuine multi-role superyachts combining an almost grand prix racing performance with superb comfort and exceptional, high-speed cruising capability.

Naval architects Reichel/Pugh Yacht Design and Nauta Yacht Design, responsible for styling and accommodation lay-out, produced an award winning yacht with a highly effective all-round performance.

Nilaya displaces just 89 tons and features a lifting keel from APM reducing her draft from 5.5m to 3.5m. A key feature is a sleek, low-level deckhouse providing an immense amount of natural light below and a panoramic view from within.

The accommodation comprises four spacious guest cabins, a large and luxurious owner's cabin, three crew cabins and a huge galley. Minute attention to detail, an accommodation lay out that works at sea and at rest, plus simple, timeless styling are the ingredients for this spectacular superyacht.
