SPECIFICATIONS

Overview

"Doña Mimi" is a wonderful opportunity to own a well-maintained Marlow Explorer that shows like a much newer yacht as her owners have spared no expense maintaining her from bow to stern. She is the ultimate example of a "turnkey" yacht that is ready to go on her next adventure. "Doña Mimi" was built with a unique air-conditioned semi-enclosed flybridge that has a hard enclosure on the front and sides, leaving the aft completely open. This provides a level of cruising comfort unlike any other. She can be cruised at an efficient 8 knots using a mere 4GPH per engine or fast cruise at 18 knots with a top speed of 23 knots. The 18' 2" beam makes her 61 feet feel more like a vessel in the 70+ foot range. The full beam master stateroom is amidship with a private his/hers en-suite head. Two additional staterooms forward, guest head, plus crew quarters with head aft allow for many family and friends to join the cruising adventures! The Portuguese bridge, covered side decks, and Marlow's proprietary Velocijet Strut Keels are just a few of the features that make handling the boat very safe and easy for a cruising couple. There is a docking station in the cockpit to make docking a breeze. The full standup engine room makes maintenance work much more pleasurable. This is a great opportunity to own the only 61E Marlow Explorer semi-enclosed bridge currently on the market.

Basic Information

Category: Motor Yacht

Model Year: 2015
