# SPECIFICATIONS

---

## Overview

---

The best aspect of this 38.70 mt. yacht, is that the performing hull guarantees both excellent stability at a very good cruising speed.

It can also cruise close to the coast without having any limitations and, with the support from the technical department, the owner has the opportunity to design a yacht which is super unique compared to others.

Thanks to the Floating Life and Satura Studio design team, this vessel has no limits when customising the interiors and exteriors.

One can travel long distances in its own space and in full comfort.
