SPECIFICATIONS

Overview

Heesen's 55-metre steel – a uniquely successful superyacht platform. Worldbeating, fuel-efficient Fast Displacement Hull Design, ocean-crossing range, huge interior volumes and a timeless profile – and available on a short delivery schedule, thanks to Heesen's bold speculative build programme.

Larger windows, assertive shapes, and longer horizontals lend a more aggressive edge to the profile. But take a closer look, and there's a new French balcony in the owner's suite. A transformative innovation.

"This is one of the most impressive innovations on the latest version of the 55-metre Steel," says Heesen CCO Friso Visser. "This is something truly unique that fundamentally changes the space."

Enhancements to exterior deck spaces are not limited to the upgraded furnishings. Functionality in the new-look 55-metre Steel is improved by additional stairways to provide better access and circulation for the crew. Less formal layouts for the aft seating areas complement a new focus on alfresco dining.

Basic Information

Category: Motor Yacht

Sub Category: Motor Yacht
