SPECIFICATIONS

Overview

The Belize 54 was designed by 4D Designs in collaboration with the Riviera and Belize design team with the designers striking keen-eyed balance between European panache and Australian practicality and have delivered greater elegance and space – in all the living areas.

One-level living from the galley aft to the cockpit. An inspired lower command helm with dedicated guest seating.

Rarely seen on a motoryacht of this style and size, the master stateroom extends the full beam of the yacht. Every bit as opulent as the master, the VIP stateroom occupies the entire forward V-section with queen-sized island bed. The third guest stateroom is no less highly specified with twin adult-sized single beds. There are two bathrooms on the accommodation deck.

Flybridge lovers will relish the wind-in-the-hair and sun-on-the-face experience that the Daybridge offers. Every bit as sociable as the main saloon. The technical credentials of the Belize 54 Daybridge will certainly impress.

Resin-infused composite construction, double vinyl-ester outer skin, watertight, stepped collision bulkhead and independent foam-filled hull compartments. CZone digital switching system, Glass Cockpit navigation and Volvo Penta Inboard Performance System (IPS) with joystick docking.

A limited number of Belize Motor Yachts are built each year. This means that you will own and command something quite different and unique...

Basic Information

Category: Motor Yacht
