## Overview

---

Combining speed and space in a formula known only to Heesen Yachts, White is yet another example of a hunger for perfection. This yacht has the largest volume of any yacht of her size and still provides a top speed of 23 knots. Her flowing lines are highly distinctive. Four deck areas provide plenty of space for every occasion. A foredeck for lounging in privacy and a 70-sqm sun deck that is among the largest on a yacht of this size. Shaded dining is possible on the upper deck while the main deck terrace combines with the salon to create an enormous 25-sqm entertaining space. At 499GT with a top speed of 23 knots, thanks to her highly efficient hard-chine hull White is among the world's fastest 50m yachts. Heesen's in-house naval architects and engineers created the hull design based on the cumulative experience of building 40+ semi-displacement yachts over 40m. The result is one of the most efficient hull forms on the market. Heesen's acknowledged expertise in weight reduction combined with a pair of high power-to-weight ratio MTU 2,880kW engines, means White will deliver excellent performance in terms of speed, as well as a very economical fuel burn and a particularly long range of 3,200nm at 11 knots. White's chic minimalist interior design is by Cristiano Gatto. Gatto's contemporary interpretation of New Déco style was inspired by the work of design legend Jean-Michel Frank.
