Overview

See at the Fort Lauderdale International Boat Show 2021

Located at Hall of Fame Marina Slip 209

Sequentis is a 2019 43' Jupiter built as project 007 under the current owner. No expense was spared in her construction or design, she features numerous custom options. Jupiter has never gone to such great lengths of customization and attention to detail. She is the most custom boat Jupiter has ever produced.

The thought behind the vessel was to be towed behind the owner's mothership and carry all tackle and tools needed to cruise and fish at high capacity. The vessel has her own water maker and ice maker, along with an outdoor kitchen complete with sink, grill and refrigerated drink box.

Forward you will find wrap around seating, removable custom teak table, in deck custom dive tank/storage, also custom port and starboard Release Marine built-in rocket launcher. A livewell for extra bait storage is located under the forward seating. Moving aft, you have a chaise lounge for two located forward of the helm. The helm is air conditioned and consists of 3x22' Garmin touch screen monitors, two Miya Epoch teaser reels in the built-in overhead compartment and three Release Marine helm chairs. Aft of the helm is the outdoor kitchen which, when the lid is down, can convert to extra seating for crew and guests. The cockpit comes complete with a Release Marine Rocket launcher, two 60 gallon live wells which can convert to four tuna tubes. Fold-down port and starboard seats are located on each side of the livewell. Port and starboard fully macerated fish boxes are also located in the cockpit, the ice maker dumping into the port side box. The Sequentis is constructed with a carbon fiber laminate and all decks are finished in teak. All gunnels have been faired underneath and finished before assembly.

The vessel is truly one-of-a-kind and the owner has taken care of her in such fashion.

For more information please reach out to the listing broker.
