## Overview

---

Wave Catamarans has risen to the challenge of creating a catamaran where comfort and a spacious living area - features hitherto associated with larger vessels - may now be found on a 50-foot yacht. The WAVE 50 offers an astonishing ratio of usable space to length, giving its users in excess of 160 m<sup>2</sup>.

Thanks to Wave Catamarans Shipyard's wealth of experience, the WAVE 50 - a unique, state-of-the-art model - is not just a vision, it is now a reality. Its perfect synthesis, where wonderful design meets cutting edge and user-friendly energy solutions, guarantees the perfect conditions to find calm and comfort on the water.

The WAVE 50, as the very first model in the new WAVE catamaran line, presents a previously unseen approach to design. The distinctive shape of the superstructure allows for an unprecedented amount of space in the lounge and the front cockpit - a rarity among 50-foot catamarans. The modern hull's inverted bows with its elegant shape accentuated by sharp slits, in addition to the rigid roof spoiler on the upper deck, all enhance the WAVE 50's inimitable slenderness.
